 +1 (330) 280–1852

Education

Bachelor of Science, Computer Science & Engineering   Class of 2021
University of Toledo, ABET Accredited   *Toledo, OH, USA*
- Summa Cum Laude
- 3.97 GPA

Career

Software Engineer I   Feb 2022 – Nov Present
NASA/ToSC, Command & Control   *Kennedy Space Center, FL, USA*
- Software engineering of simulation software for Exploration Ground Systems for Artemis II, Artemis III
- Developed and verified software conforming to NASA Class C Software requirements
- Developed and debugged networked software communicating with PLC runtimes using the Common Industrial Protocol (CIP)
- Reverse-engineered legacy Rockwell PLC functions and designed their re-implementation and integration into a custom PLC emulator
- Created design presentations to coordinate strategy between workgroups to emulate various PLC functionality in emulation

Software Engineer I   Jun 2020 – Feb 2022
AFIT, Center for Space Research & Assurance   *Wright-Patterson AFB, OH, USA*
- Contributed to the first open-source spacecraft flight software framework written in Rust
- Developed CubeSat flight software in C with NASA's cFS framework and also in Rust with KubOS
- Developed CubeSat ground control software which interfaces with databases and TCP/UDP hardware interfaces in Python
- Automated generation of template files ingested by flight software and ground software to accelerate CubeSat mission development

Software Engineering Co-op   Jan 2019 – Aug 2019
NASA IV&V   *Fairmont, WV, USA*
- Contributed to NASA's open-source flight software simulator (NOS3) with upgraded packages and documentation
- Developed Rust bindings to C++ based hardware abstractions layers for NOS3 simulator
- Modeled CubeSat OEM hardware components into C++ emulators running in NOS3

Competencies

- </> **Primary Languages:** Rust, C/C++, Python
- </> **Other Languages:** Java, TypeScript, GraphQ, IEC 61131–3 Structured Text, Ladder Logic
- **CI/CD:** GitLab CI configurations (YAML)
- **Content Management:** Git, GitHub, GitLab
- **Software:** Docker, Confluence/Jira, VersionOne, Visual Studio, VSCode
